water of feeding catchment area into Nazafgarh drain. No complaints about any foul smell have received by DDA.

(b) The Municipal Corporation of Delhi (MCD) has informed that Culex mosquito breads in polluted drain water which is not a vector for any disease in Delhi. Weakly anti-larval measures are taken by MCD by spraying larvicides in the nallah.

(c) The MCD has further stated that mosquitoes transmitting Dengue and Malaria do not bread in such drain.

(d) In view of the reply to (b) and (c) above, does not arise.

Master Plan for Delhi

†1774. SHRI MANGANI LAL MANDAL: Will the Minister of URBAN DEVELOPMENT be pleased to state:

(a) whether it is a fact that a master plan has been drawn up to develop Delhi, the capital of the country, and make it an attractive and beautiful place alongwith all basic infrastructural facilities;

(b) if so, the details thereof; and

(c) whether it is a fact that Delhi is becoming filthy day-by-day and jhuggi-jhopri, shop-keepers and religious mafia are polluting the whole atmosphere?

THE MINISTER OF STATE IN THE MINISTRY OF URBAN DEVELOPMENT (SHRI AJAY MAKEN): (a) and (b) The draft Master Plan for Delhi-2021 in respect of which a public notice was issued on 8th April, 2005, for inviting objections/suggestions, provides for Vision 2021 to make Delhi a global metropolis and world class city where all the people are engaged in productive work with a decent standard of living and quality of life in a sustainable environment. Apart from recommending provisions related to the planning process for critical issues such as land, physical infrastructure, transport, the ecology and enviornment, housing, socio-cultural and other institutional facilities, it also makes recommendations on relevant aspects of governance and management.

(c) Regular efforts are made by local bodies and the agencies concerned to maintain cleanliness and prevent/remove encroachments in accordance with the provisions of relevant Acts and policies.
